

World's Leading IC Solution

Flair Bridge Pro

Flair Puck Pro

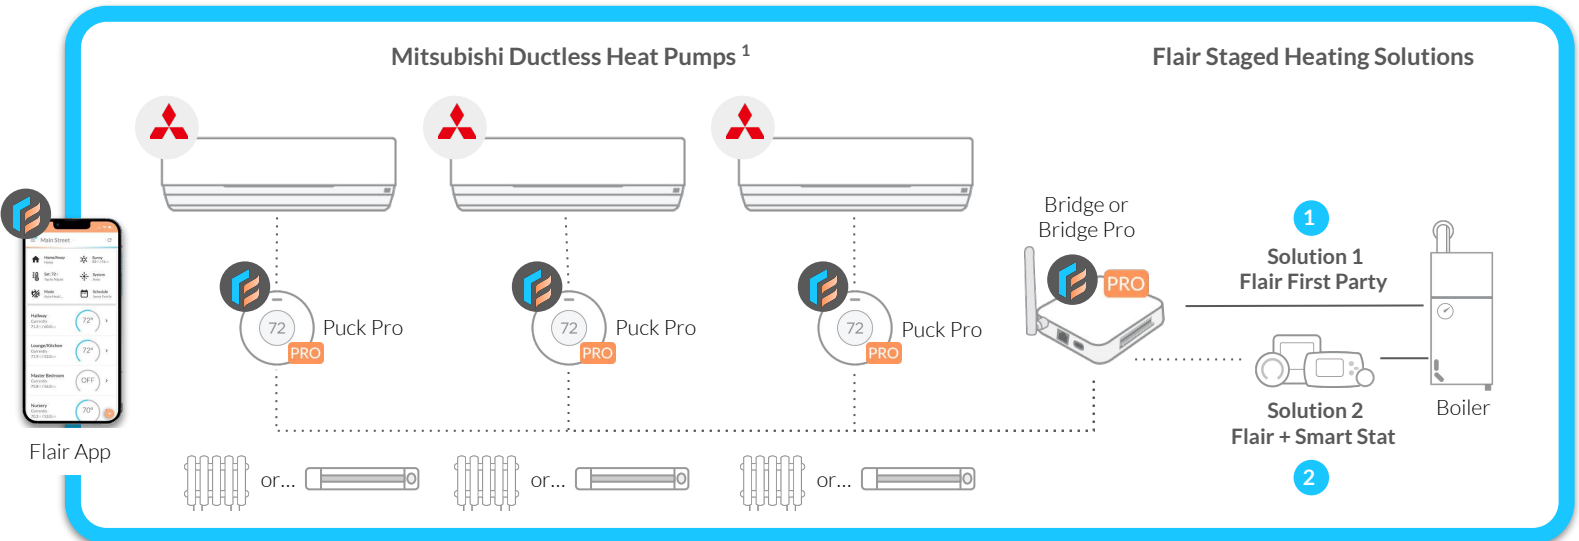

Mitsubishi Ductless Heat Pumps

Staged Heating (Integrated Controls) with Mitsubishi & Flair

STAGED HEATING SOLUTION BENEFITS

- **Integrated Controls with no wire pulls – Market’s ONLY truly wireless solution:** No wiring required (no C-Wire or USB), or additional devices in the head units, reducing device and labor costs.
- **Rebate eligible:** Flair devices qualify for rebates that significantly reduce the up-front cost of staging equipment and can trigger significant additional rebates for Mitsubishi heat pumps.
- **Universal ductless compatibility:** Works with any ductless system controllable by a handset. Extensive coverage of Mitsubishi equipment whether legacy or new.
- **Single app solution:** Fully control both first stage (Ductless Heat Pumps) and second stage (Boilers, Electric Baseboards) equipment in one application. Simple to install, configure, and use.
- **Built for contractors:** Pro products and features only available through the Pro channel. Remote access allows Pros to eliminate truck rolls for troubleshooting systems. **Training available.**

STAGED HEATING SOLUTION DIAGRAM

¹ Flair Staged Heating Solutions support any Mitsubishi wall, floor, ceiling, or window mounted heat pump controlled via an infrared (IR) remote

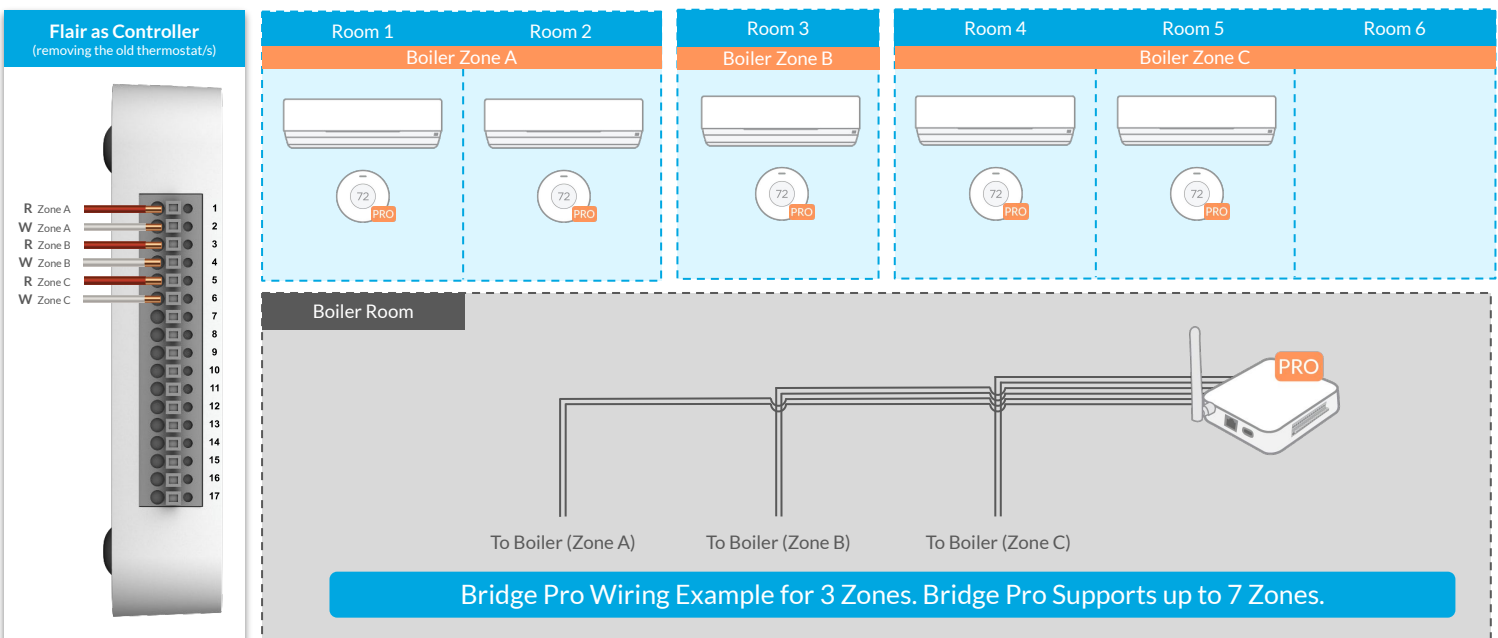

FLAIR | MITSUBISHI STAGED HEATING DIFFERENCE

- **Market leader:** Number one supplier and pioneer of Integrated Control solutions.
- **Most affordable | Rebate eligible:** Lower total solution cost than alternatives. Flair does not require the additional cost of third party smart thermostats and associated wire pulls.
- **Most flexible solution:** Control second stage equipment with the Bridge Pro (recommended) or third party smart thermostats. Bridge Pro directly controls up to seven boiler or electric strip heat zones.
- **Most installer and tech friendly:** Ethernet option (Wi-Fi supported, but not required) - never wait for homeowners to find Wi-Fi passwords again. Avoid 2.4 GHz and 5 GHz issues or router settings changes.
- **Live Pro support:** Highly skilled, Pro-only support team reachable via phone and email.
- **All the benefits of Flair's Puck Pro for ductless:** Humidistat capabilities, scheduling, RoomSense™, geofencing, and more.
