Mitsubishi Ductless Heat Pumps

# Control of Mitsubishi Ductless Heat Pumps with Flair

## DUCTLESS CONTROL SOLUTION BENEFITS

- **Market's ONLY truly wireless solution:** No wiring required (no C-Wire or USB), reducing installation costs yet enabling on-wall and app control to enhance performance of ductless heat pumps.
- **Universal ductless compatibility:** Works with any ductless system controllable by a handset. Extensive coverage of Mitsubishi equipment whether legacy or new.
- **Everything you expect from a smart thermostat:** Flair's mobile, tablet and desktop applications deliver the features of smart thermostats to ductless devices such as scheduling, geofencing, and application control from anywhere in a single control platform.
- **Built for contractors:** Exclusive products and features only available through the Pro channel. Remote access allows Pros to eliminate truck rolls for troubleshooting systems. Mode Lock eliminates error codes and callbacks on multizone equipment.

## DUCTLESS CONTROL SOLUTION DIAGRAM

<sup>1</sup> Flair supports any Mitsubishi wall, floor, ceiling or window mounted heat pump controlled via a handset

<sup>2</sup> Flair's Auto Dry Mode feature automatically switches between Dry Mode and Off or Dry Mode and Cool for easy humidity management

# FLAIR DUCTLESS CONTROL SOLUTION DIFFERENCE

- **Installer and tech friendly:** Ethernet only option (Wi-Fi supported, but not required) - never wait for a homeowner to find their Wi-Fi password again. Avoid 2.4 GHz and 5 Ghz issues or router setting changes.
- **Pro only offering:** Highly skilled, Pro-only support team reachable via phone and email.
- **Integrates with smart home devices:** Compatible with popular smart home platforms like Amazon Alexa and Hey Google/Google Assistant for voice control.
- **Realtime and historical temperature, humidity, setpoints, outdoor temps, etc.:** Investigate and address performance issues or problematic usage patterns remotely.
- **Only ductless Title 24, JA5 compliant Occupant Controlled Smart Thermostat (OCST):** DR capable.

## Smart Control for Ductless Heat Pumps

### SMART CONTROL FEATURES

**Smart App Control:** [Flair hvacOS™](#) enables simple yet powerful control and automation from anywhere.

**RoomSense™:** A better read on the actual room temperature. Auto adjusts set point to maintain the correct temperature.

**Active/Inactive Rooms:** Heat or cool only the rooms you need while reducing wasted energy in unused spaces.

**Schedules:** Create and automate custom schedules for each room, ensuring comfort when and where you need it.

**Smart Away:** Monitors temperature while you are away to minimize cost while preventing unacceptable indoor temperatures.

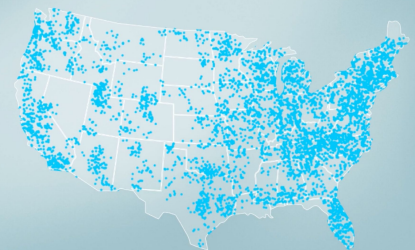

**Auto-Dry Mode:** Automatically switches between Dry Mode and Off or Dry Mode and Cool for easy humidity management.

**Mode Lock:** Ensures all ductless units are in heat or cool mode. Simplifies multizone limitations for homeowners.
