- Amazon
- Cync
- Other

**Select:** Too hot / No issue / Too cold

**Available Flair sizes:** 4x10 / 4x12 / 4x14 / 6x10 / 6x12 / 6x14 / 8x8 / 8x10 / 10x10 / 12x12. Subject to change.

## How to Measure

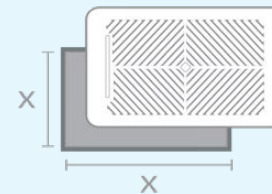

Vents come in many sizes and can vary throughout your home. **Individually measure each supply vent.**

**METHOD 1**

(Fastest)

Measure the outside dimensions and round down to the nearest even number (inch).

**METHOD 2**

(Most Accurate)

Remove your vent and measure the duct opening. In Canada? Only this method works.

**METHOD 2**

Out of reach vents?

Use phone apps to measure.  
[Measure](#) (iPhone)  
[AR Ruler](#) (Android)

# System Builder Worksheet: Zoning & Air Balancing | Up to 15 Rooms

Use this worksheet to gather the information, then complete the [System Builder](#) to generate the right system.
